PROFILE

A disciplined Japanese language professional & Software engineer with a strong foundation in business communication, technology, and cross-cultural coordination. With 2 years of exposure to corporate environments and Japanese clients, I operate at the intersection of language precision and process excellence. Appeared for JLPT N3 (December 2025, result awaited) with high confidence of achieving a strong score. Known for reliability, cultural sensitivity, and execution-focused thinking.

WORK EXPERIENCE

2023 - 2024

UNICEF

Youth Advocate

- Acted as a youth representative contributing to national-level youth development initiatives aligned with UNICEF's YUWAH (Generation Unlimited) framework, focusing on employability, skills, civic engagement, and youth-led advocacy.
- Collaborated with peers, mentors, and program coordinators across diverse backgrounds, strengthening cross-functional and cross-cultural communication skills.
- Policy-awareness & social-impact alignment

2024 - Present

Tatvasoft | Full-Time

Web Engineer

- Worked in a structured corporate environment delivering IT solutions with process discipline.
- Regularly engaged in requirement understanding, documentation, and stakeholder communication.
- Utilized Japanese language skills for learning, documentation understanding, and simulated client communication scenarios aligned with Japanese business culture.
