

Taksh Gadhiya

Ahmedabad, India | taksh.m.gadhiya@gmail.com | +91 78748-73576 | LinkedIn: [takshgadhiya](#)

PROFESSIONAL SUMMARY

Full Stack Software Engineer with hands-on experience across diverse frontend & backend technologies, with primary expertise in Angular & ASP.NET Core. Proven ability to deliver flexible, scalable and maintainable solutions across domains including healthcare, education and finance. JLPT N3 certified with professional Japanese communication capabilities, enabling effective collaboration in cross-cultural and Japan-oriented environments. Strong foundation in Agile methodologies and the complete software development lifecycle, with a disciplined approach to building high-quality, production-ready systems.

TECHNICAL SKILLS

- **Programming:** C#, Java, SQL, JavaScript, TypeScript
- **Backend:** ASP.NET Core, Spring Boot, Microservices, Web API
- **Frontend:** Angular, React, Bootstrap
- **Databases:** SQL Server, PostgreSQL, MongoDB
- **Tools:** Git, GitHub, Azure, Jira, Postman, SourceTree
- **Languages:** English, Japanese (N3~N2), Hindi, Gujarati

PROFESSIONAL EXPERIENCE

Software Engineer

Tatvasoft, Ahmedabad

July 2024 – Present

- Delivered consistent results in requirement analysis, code optimization & defect resolution, ensuring timely delivery across multiple Agile-driven projects.
- Collaborated effectively with cross-functional teams while contributing across all phases of the Software Development Life Cycle (SDLC), from design through deployment and maintenance.
- Worked in Agile environment, participated in sprint planning and code reviews

Trainee Software Engineer Intern

Tatvasoft, Ahmedabad

Jan 2024 – June 2024

- Independently designed and developed a Hospital Management System using ASP.NET, overseeing the complete development lifecycle from concept to implementation.
- Gained hands-on experience in database management, RESTful API development, and seamless frontend-backend integration.
- Contributed to the development and debugging of enterprise-grade modules, with a strong focus on full-stack functionality and system reliability.

KEY PROJECTS

Project	Human Focus (E-learning Platform)
Tech	ASP.NET Core, Angular, SQL Server
Highlights	• Built LMS for training assignment & completion tracking

	• Developed content builder & e-checklist modules • Enabled safety alerts & multilingual course delivery • Implemented secure APIs, RBAC, and optimized database performance
Project	HelloDoc (Healthcare Platform)
Tech	ASP.NET MVC, PostgreSQL
Highlights	• Developed online consultation & appointment system • Implemented role-based workflows (Admin, Physician, Patient) • Built secure communication & patient record management • Optimized APIs and database for efficient data handling
Project	HR Management System (Content Management System)
Tech	Java (Spring Boot)、Hibernate、Spring Security、PostgreSQL、Liquibase、JUnit、Mockito
Highlights	• Developed a web-based HR Management System for onboarding, leave, tasks, meetings, and recruitment. • Handled requirements to implementation, including client communication, project management, and unit testing (SOLID-based design). • Unit Testing with JUnit and Mockito
Project	Full Fleet Support (Vehicle Rental System)
Tech	React, Node.js, MongoDB
Highlights	• Developed REST APIs for fleet and booking management • Integrated external services for system interoperability • Handled backend development and database operations
Project	Blog Website (It's Taksh)
Tech	Astro, Node.js, MongoDB
Highlights	• Designed and developed personal blog using Astro • Implemented user-specific content visibility • Built backend services and optimized performance

EDUCATION & CERTIFICATIONS

Bachelor of Engineering in Information & Technology

L.D. College of Engineering (Gujarat Technological University)

July 2020 - July 2024

NSS LDCE

JLPT N3

Youth Advocacy @UNICEF

Field Instructor @Invincible NGO
