

Taksh Gadhiya

Bengaluru, India | taksh.m.gadhiya@gmail.com | +91 78748-73576 | LinkedIn: [takshgadhiya](#)

PROFESSIONAL SUMMARY

Full Stack Software Engineer with expertise in Java and .NET Core, experienced in designing and delivering scalable, maintainable, and high-quality software solutions across healthcare, education, and finance domains. JLPT N3 certified with professional Japanese communication skills, enabling effective collaboration in multicultural and Japan-oriented environments. Strong understanding of Agile methodologies and the complete software development lifecycle.

TECHNICAL SKILLS

- Programming:** C#, Java, SQL, JavaScript, TypeScript
- Backend:** .NET Core, Spring Boot, Microservices, Web API
- Frontend:** Angular, React, Bootstrap
- Databases:** SQL Server, PostgreSQL, MongoDB
- Tools:** Git, Azure, Jira, Postman, SourceTree
- Languages:** English, Japanese (N2~N3), Hindi, Gujarati

PROFESSIONAL EXPERIENCE

Accenture

Packaged App Development Analyst

Bengaluru, India

Jun 2026 – Present

- Managed end-to-end process migrations, ensuring smooth knowledge transfer and successful transition of operations.
- Coordinated Japanese-English communication between customers and internal stakeholders.
- Analyzed workforce utilization and proposed process improvements to improve operational efficiency.

TatvaSoft

Software Engineer

Ahmedabad, India

Jul 2024 – May 2026

- Developed enterprise web applications using Angular, React and .NET Core.
- Designed REST APIs and optimized SQL Server/PostgreSQL databases.
- Participated in Agile ceremonies, sprint planning, code reviews and production support.

Software Engineer Intern

Ahmedabad, India

Jan 2024 – Jun 2024

- Built a Hospital Management System using .NET technologies.
- Developed REST APIs and integrated frontend with backend services.
- Worked on debugging, testing and database development.

KEY PROJECTS

Project	Healthcare Platform (FUJIFILM Japan)
Tech	Spring Boot Microservices, Spring Cloud, PostgreSQL, Liquibase, Mockito
Highlights	- Developed online consultation & appointment system - Implemented role-based workflows (Admin, Physician, Patient) - Built secure communication & patient record management - Optimized APIs and database for efficient data handling

Project	E-learning Platform (Human Focus)
Tech	.NET Core, Angular, SSMS
Highlights	- Built LMS for training assignment & completion tracking - Developed content builder & e-checklist modules - Enabled safety alerts & multilingual course delivery - Implemented secure APIs, RBAC, and optimized database performance

Project	Blog Website (It's Taksh)
Tech	Astro, Node.js, MongoDB
Highlights	- Designed and developed personal blog using Astro - Implemented user-specific content visibility - Built backend services and optimized performance

EDUCATION & CERTIFICATIONS

Bachelor of Engineering in Information & Technology

L.D. College of Engineering (Gujarat Technological University)

July 2020 - July 2024

NSS LDCE

JLPT N3

Youth Advocacy @UNICEF

Field Instructor @Invincible NGO
